**We invite you to a powerful 5-day event as we co-create a paradigm change that can inform every aspect of our lives: how we love, work, eat, play and breathe**

**S**piritual paths have asserted that everything we experience is an illusion. The way in which we perceive places, people and objects over time attests to the fact that what we perceive is that object filtered through the meaning it has for us. We often treat people, not for who they are, but for who we perceive them to be and who we unconsciously need them to be.

So how do we know what is “real” if what we “see” is shaped by our own internal reality?

Long term relationships of any kind reveal that through the alchemy of intimacy, veils of “illusion” dissolve as both parties come to see each other with more depth and accuracy. \*

In this #8 Journey into the Mystery, we will attend the way that we perceive ourselves, each other, the world and the Divine Source of it all. These perceptions affect every aspect of our lives. We will sift through layers of our meaning-making filters so that we can have a conscious participatory role in how our “eyes of meaning” create the reality we live.

\* This workshop is especially recommended for people for people who are either in or wanting to be in long term relationship.
